Gnarly Native American art on skateboard decks

Posted on July 21, 2022 by problogs

We had the pleasure of visiting the [Indian Pueblo Cultural Center in Albuquerque, New Mexico](#). This facility is very impressive and includes a variety of exhibits, meeting rooms, as well as a nice restaurant and gift shop.

How often did skateboard decks become such a fine canvas for artists? Throughout this post are photos depicting these spectacular works of art.

If you get a chance to be in New Mexico between now and February 2023, be sure to check out the Indian Pueblo Cultural Center in Albuquerque and see this amazing exhibit of modern artistic craftsmanship. Peace!
